THE RENAISSANCE OF COLOR

Advanced features that deliver impressive performance, enhanced workflow efficiency and eye-catching image quality

MX-2600N/MX-3100N...

Sharp's new MX-2600N and MX-3100N Series color document systems have been meticulously engineered to help businesses maximize their document workflow efficiency while providing outstanding image quality and performance. These new models offer many advanced features such as a large, **high resolution touch-screen color display** with **graphical menu navigation** and a **full-size retractable keyboard** to make data entry easy. Plus, with a powerful 800 MHz true multi-tasking controller, the MX-2600N and MX-3100N can help save time and money producing professional color documents in-house with breathtaking image quality that is also economical. With Sharp's advanced device management, it's easy to control color usage and costs. The MX-2600N and MX-3100N have been built on the latest Sharp OSA® development platform, making integration with network applications easier than ever. And, with Sharp's industry leading security suite, you can rest assured that your intellectual property is well protected.

Sharp's award winning document systems offer innovative features that stimulate productivity

USER-FRIENDLY

- Powerful 800 MHz **true multi-tasking** full-color document system
- Large, **high resolution touch-screen** color display with graphical navigation
- Advanced second generation micro-fine toner technology offers sharp, **high quality images** page after page
- **1200 x 1200 dpi** printing provides clear, crisp images even on jobs with fine detail
- Network interface supports **gigabit ethernet**
- Industry leading **ImageSEND™** function scans documents to USB devices, network folders, e-mail and more
- Robust 38 GB **document filing system** with **thumbnail view** and **image preview** features
- Network ready PCL®6/PCL5c **printing system** with **direct print** function and available Postscript® 3™ and Windows® XPS options
- Supports the latest Sharp OSA development platform, enabling businesses to streamline document workflow and **enhance productivity** faster and easier than ever before*
- ImageSEND function scans documents at up to **50 images per minute** in both black and color
- **Flexible paper handling** system feeds up to 110 lb index through paper trays and up to 140 lb index through bypass tray
- On-board paper storage capacity for **up to 5,600 sheets** with options
- **Super G3 fax** option with intelligent inbound routing
- Supports Sharp's latest **award-winning** multi-level document and network **security suite**
- Supports new **IEEE-2600 security standard** for MFP devices
- Advanced **web-based device management** offers both administrator level and user level login control
- New **remote front panel feature** allows users and administrators to view and control machine operations from a PC workstation*
- **Environmentally friendly design** offers low power consumption, long-life parts and is supported by Sharp's toner recycling program

PERFORMANCE FEATURES MAXIMIZE YOUR BUSINESS

With today's fast-moving business environment, you need every advantage you can get—experience Sharp's enhanced MX Color Document Systems

Built-in Retractable Keyboard for Added Convenience

For workgroups that perform a significant amount of data entry, the MX-2600N and MX-3100N color workgroup document systems include a standard retractable keyboard. Designed to simplify e-mail address and subject line entries, as well as repetitive scanning tasks and user authentication, the built-in keyboard offers users a familiar ergonomic interface.

The Flexibility and Performance You Need

With a new 8.5" (diagonally measured) **high-resolution touch-screen color display** and a powerful 800 MHz **multi-tasking controller**, the new MX-2600N and MX-3100N color workgroup document systems can help elevate your office productivity to the next level. The intuitive menu navigation system with razor sharp graphics makes operating the MX simple and easy. With Sharp's true multi-tasking controller, complex color print jobs can be processed quickly, even while documents are being scanned. But that's just the beginning—with a **standard 100-sheet reversing document feeder**, automatic duplexing, electronic sorting and integrated offset stacking, you'll complete even large jobs in a snap.

Large 8.5" (diagonally measured), high-resolution touch-screen display

High Quality Output You Can Rely On

The new MX-2600N and MX-3100N color workgroup document systems combine Sharp's second-generation micro-fine toner technology with **1200 x 1200 dpi** print resolution to produce documents with crisp, clear images and dazzling high quality colors. Sharp's **Advanced Image Stabilization** system helps ensure uniform density and color balance for beautiful output page after page.

Reliability Your Business Can Depend On

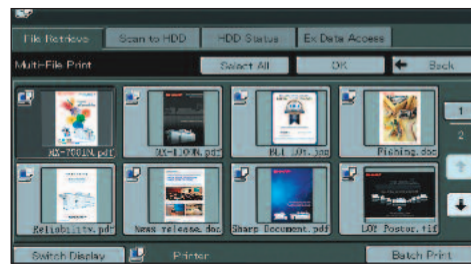

Sharp's MX color workgroup document systems deliver professional performance and optimal productivity to satisfy your daily production needs. Copy/print **speeds up to 26 ppm and 31 ppm** respectively (in both color or B&W) help you to meet project deadlines with time to spare. The flexible paper handling system can feed up to 110 lb index stock through the paper trays and up to 140 lb index through the bypass tray. With available on-line paper capacity of up to 5,600 sheets, the MX-2600N/3100N is ready when you are.

On-line paper capacity stores up to 5,600 sheets with options

Innovative Document Filing

Sharp's easy-to-use **Document Filing System** provides up to 30 GB of hard drive space to store frequently used files like forms and templates. Plus, with Sharp's **thumbnail preview** mode, stored jobs can be located and retrieved quickly. An advanced backup system and PIN-access security helps ensure that your files are safe.

Get Professional Results with Advanced Finishing

The MX-2600N/3100N offers a choice of two high-performance finishers that can always give your documents a professional look and feel. You can save time and money by minimizing outsourced color jobs such as proposals, presentations or newsletters. Choose from a compact inner finisher or floor-standing saddle-stitch finisher. Both models offer three-position stapling and an available 3-hole punch.

Out-front, easy-to-use features can help maximize document workflow efficiency in any business environment

Exceptional Print Quality with Professional Finishing

With the MX-2600N and MX-3100N, your business can produce brilliant, high quality color documents, as well as razor-sharp B&W documents. Plus, with **1200 x 1200 dpi** resolution, even documents with fine detail

Sharp's easy-to-use print drivers make accessing all of the MX Color features simple and easy

will look great! **Powerful finishing features** include 3-position stapling for up to 50 sheets, saddle stitching up to 15 ledger-size sheets and hole-punching.* Now, you can **produce professional quality documents** from your desktop that look so good, everyone will think you had them sent out to a printer.

A True Multi-Tasking Document System

The new MX-2600N and MX-3100N feature a **high-performance, 800 MHz multi-tasking controller** that delivers copy, fax and print jobs continuously for optimum efficiency. Other controllers only perform one operation at a time. But the MX Series continually processes incoming jobs even while existing jobs are output. The result? A workflow that virtually never slows down—even at crunch time.

Direct USB Printing Adds Convenience and Portability

With Direct USB printing, users can print color or B&W files in a variety of popular formats directly from USB memory devices such as a ThumbDrive™ or ClipDrive™.* Need to print PDF brochures in a hurry for a big meeting? It's easy with the MX Color Series, just plug in your portable USB memory device, select the file, and your job prints immediately.

USB 2.0 port is located on the front panel of the machine for easy access

FLEXIBLE DOCUMENT DISTRIBUTION

Integrated Network Scanning

With Sharp's powerful **ImageSEND** technology, you get one-touch distribution features that centralize document workflow, help reduce mail costs and save time. With up to **seven destinations**—E-mail, Desktop, FTP, Network Folders (SMB), USB, Fax and Internet Fax—getting your document where it needs to go is as easy as pushing a button. High-volume workgroups will appreciate the **Send to Group** mode that allows you to mix group broadcast to E-mail, Fax, and Internet Fax for increased efficiency.*

Convenient E-mail Distribution

With Lightweight Directory Access Protocol (LDAP), there's no need to manually enter a recipient's complete e-mail address. Simply enter the first few characters and the MX automatically searches and displays a list of matching names. **Unique File Naming** allows users to enter specific file names with custom subject fields, so it's easier than ever to recall files when you need them. And, with **Sharpdesk®** personal document management software, users can easily organize their scanned documents and integrate them into everyday workflow.

Integrated PC Fax and Internet Fax

Add powerful facsimile capability to your MX Color Series with the optional Super G3 fax module, which offers advanced features such as automatic stapled/copied receptions and Inbound Fax Routing to e-mail. Sharp's innovative PC fax driver enables users to send fax documents right from their desktop. For Internet fax operation, add the optional B&W Internet Fax expansion kit.

Versatile Application Integration

To help streamline document workflow and **enhance productivity**, the MX-2600N and MX-3100N support the Sharp OSA development platform. This third generation technology allows users to **interact with network applications** faster than ever before—and right from the machine LCD panel! With the ability to personalize applications and processes specific to your business, Sharp OSA technology can help reduce redundancy and streamline workflow. Sharp OSA technology uses industry-standard network protocols, such as **XML** and **SOAP**, allowing the MX to communicate with many different applications. The Sharp OSA development platform is also scalable, so as your workflow needs change, Sharp's application integration can change as well.

ADVANCED DEVICE MANAGEMENT MAXIMIZES PRODUCTIVITY

Engineered with you in mind, the MX-2600N/3100N combines easy-to-use integrated software with robust device management capabilities

"Device Management & Integration" Award 2009

The Sharp Administration Utility Suite

Sharp's Administration Utility Suite takes management of your MX-2600N/3100N to the next level. This easy-to-use software allows you to take control of the versatile system features and simplifies installation and management.

- With **Printer Status Monitor**, network users can view printer conditions, check paper levels, toner, and more, all through an easy-to use interface.
- With Sharp's advanced **Printer Administration Utility**, administrators can easily manage the setup, configuration, device settings, cloning and more! New advanced features such as **Remote Front Panel** allow administrators and support personnel to view and control the LCD panel of the machine remotely from any PC on the network!* Plus, with event-driven, real-time service alerts, administrators and supervisors can achieve higher productivity. Now, it is easier than ever to view service logs, click counts, history reports and more.
- Experience the convenience of an **Embedded Web Page** right from your desktop! This advanced web-based management tool allows users to create and manage their own network scanning destinations, profiles and web-links. Administrators can access device settings, color control, account information and security settings.

Take Charge of Color Usage and Costs

With Sharp's **device management system**, administrators and supervisors can define user groups on the MX to manage and restrict features, such as color copying, scanning or printing. Easily set up a custom user group to manage page counts (copy, print, scan or fax operations) for both color and B&W. The MX-2600N/3100N can store **profiles for up to 1000 users**. Now, it is easier than ever to manage the costs of color imaging!

Separate print buttons for B&W and Color allow users to selectively manage use of color

24/7 Training with My Sharp

Managing all of the advanced features of your Sharp product is simple and easy. Ask your Authorized Sharp Dealer about the **My Sharp website**. This dedicated customer training website is customized to your MX-2600N/3100N and allows you to locate resources and find information specific to your configuration, truly helping you maximize your investment.

Innovative document and device protection helps ensure confidentiality of information as well as authorized access and control of all functions.

To help protect your data, the MX-2600N/3100N Series offers several layers of security, making Sharp the optimum choice to protect employee privacy and intellectual property. As the leader in office equipment security, Sharp makes it easy for any business or government entity to safely deploy digital copying, printing, scanning and faxing.

Authority Groups and Access Control

Advanced account management enables administrators to set authority groups for access to features of the MX-2600N/3100N Series. Administrators can control which department, for instance, has full access to color copying, printing, scanning and/or fax. Walk up users enter a code, Local Name and Password, or LDAP User Authentication to access their features assigned to their group. Users can also login utilizing a human interface device (HID) such as a Smartcard or Common Access Card (CAC).*

Data Erase and Encryption

To help protect your data, the MX-2600N/3100N Series offers an optional data security kit that encrypts document data using **AES** (Advanced encryption standard) **encryption**. Additionally, the data security kit erases the temporary memory on the hard drive by overwriting the encrypted data up to seven times, offering an unprecedented level of assurance.

Network Scanning Access

To help protect your network from unauthorized e-mail communications, the MX-2600N/3100N Series supports **User Authentication**, requiring users to login before performing any network scanning operations.

Control Device Access Over the Network

To help restrict access to the device over the network, the MX-2600N/3100N Series offers IPsec, SMB and extended support for **SSL Encryption** (Secure Sockets Layer), **IP/MAC address filtering**, IEEE 802.1x authentication, protocol enable/disable and port management for maximum security.

Documents Remain Confidential

To help protect your printed documents from unauthorized viewing, the MX-2600N/3100N Series offers encrypted PDF files for printing and scanning as well as **Confidential Printing** that requires users to enter a PIN code in order to print a queued document. Additionally, **Secure Fax Release** ensures received fax documents are held in memory until an authorized user enters a PIN code. So compliance with healthcare regulations such as HIPAA is easier.

Tracking and Auditing Information

Legislation and industry policies require companies to be more aware of information flow from their offices. Sharp offers both built-in and additional hardware/software which allows users to control, access and track usage of each device on the network.

These scalable security offerings aim to protect your intellectual property, preserve confidential information and help your business to meet regulatory requirements, such as the Health Insurance Portability and Accountability Act (HIPAA), and the Gramm Leach Bliley Act (GLB). ENVIRONMENTALLY FRIENDLY

Designed with a Strong Commitment to Protecting the Environment

The MX-2600N and MX-3100N document systems utilize Sharp's second generation micro-fine toner technology, which offers a lower consumption rate than conventional toners. This also results in less packaging material and longer replacement intervals. Additionally, all Sharp supplies are packaged using fully recyclable materials. Power consumption on the MX-2600N and MX-3100N is among the lowest in the industry and supports two different energy saving modes to reduce or shut off power after a set interval. All Sharp document systems belong to the EnergyStar® program, and RoHS program.

An Economical, Low Maintenance Color Document System That Makes Sense

The MX-2600N and MX-3100N are designed to accommodate both large and small office environments. With a compact wingless design, the footprint of each base model is less than 25" x 28". Our new long-life consumable parts and supplies minimize service intervals and down time, resulting in lower operating costs.

Sharp's Environmental Leadership

Reinforcing our commitment to the environment, in 2007, Sharp received the **Excellence in Partnership Green Contractor Award** and the **Evergreen Award** from the U.S. Government's General Services Administration and the Coalition for Government Procurement.

The Green Contractor Award recognizes contractors that have made the best overall commitment to the environment by offering environmentally friendly products and services or adhering to environmentally sound manufacturing procedures.

The Evergreen Award identifies environmentally-friendly businesses and their efforts in recycling and waste reduction practices. Please visit www.sharpusa.com/environment to learn more about our environmental leadership.

Toner Recycling Program

As part of our commitment to preserving the environment, Sharp offers customers a toner recycling program for all Sharp copiers and MFP products. Sharp encourages customers to recycle their used toner cartridges by providing a pre-paid shipping label for their return to our facility. Please visit www.sharpusa.com/recycle to learn more.
